

# KNOX ENVIRONMENTAL SUSTAINABILITY PLAN AT A GLANCE

The Knox Environmental Sustainability Plan 2023 - 2030 outlines a roadmap towards best practice in environmental sustainability in the education sector. It defines commitments, targets and activities across the 7 key focus areas, each supporting the Knox Grammar School strategy and the UN Sustainable Development Goals

## Climate Action

**100%** Renewable power by 2027

work towards **Net Zero Emissions** in line with 1.5C global warning limit

## Waste & Recycling

**100%** Green Waste Recycling by 2026

**90%** Paper Recycling by 2026

**100%** Recycled Paper used for all printing by 2026

## Energy & Water Efficiency

Save over **\$320K** each year in energy costs

All Sports Fields using **captured water** for irrigation by 2024

## Engagement & Integration

Increase Student and Staff Engagement in the Knox Environmental Sustainability Plan

## Buildings & Campus

New buildings to deliver healthy, resilient and positive places for people and nature. Key issues;

- Climate action
- Resource efficiency
- Health & Wellbeing

## Travel & Transport

All school vehicles to be electric and all external transportation to be delivered in a **Carbon Neutral** manner by **2030**

## Goods and Services

Align all purchases with Green Purchasing Guidelines

**Reduce | Reuse | Recycle**
